

Picture Perfect LED Upgrade Kits

These low voltage retrofit insert packs come with either non-dimmable or dimmable drivers & are designed to fit into existing picture light heads to drastically improve the light coverage across the canvas, reduce the damaging heat & UV levels, increase the definition on the canvas and drastically reduce the on-going maintenance required. These packs are slim & elegant and will fit into the narrowest of picture lights using our universal adaptor. Quick & easy to install using our 2-pack epoxy adhesive which take 5 minutes to set and 60minutes to fully cure. Driver selection should be made on the canvas height of the painting.

Specification	Kit 1	Kit 2	Kit 3	Kit 4	Kit 5	Kit 6
Colour Temperature	2700K					
Colour Rendering Index	>95+					
Beam Angle	1 x 40BA	2 x 40BA	3 x 40BA	4 x 40BA	5 x 40BA	6 x 40BA
Current Range	350 - 500mA					
Wattage @ 350mA	1.9W/LED					
Wattage @ 500mA	2.3W/LED					
Lumens @ 350mA	100lm/LED					
Lumens @ 500mA	150lm/LED					
Dimming	Non-dimmable, Mains & 1-10V dimming options available					
Picture Light Head Size	4"	8"	14"	20"	26"	32"
Upgrade Kit Dimensions - Length	3.5"	7.5"	13.5"	19.5"	25.5"	31.5"
Upgrade Kit Dimensions - Width	1.5"	1.5"	1.5"	1.5"	1.5"	1.5"
Upgrade Kit Dimensions - Depth	1"	1"	1"	1"	1"	1"
Distance between LEDs	6" Spacing					
Dimmable	Yes					
Expected lamp life	30,000Hrs					
Warranty	3 Years					

Driver selection	Kit 1	Kit 2	Kit 3	Kit 4	Kit 5	Kit 6
For Canvas Height <50"	Short - 350mA (Non-dimmable)					
For Canvas Height >50"	Long - 500mA (Non-dimmable)					
From a mains dimmable Supply	Dim - 500mA D					
Localised dimming (0-10V) with dimming switch	Loc Dim - 500mA LD					

Kit 2 of 6 Kits - Image for Illustration Purposes
