

Picture Perfect Art Framing Projector 0825~45T

Our series of Art Framing Projectors are designed specifically to light individual painting shapes and sizes remotely to either give a very crisp & focused edge to the light or can be blurred to give a much softer edge, as required. Working with our high CRI (Colour Rendering Index) Ra 97 LEDs these lights are powered by a Tridonic high efficiency light engine. Various Mounting Options are available.

Specification:

Zoom & Focus Range:	25°~35°
LED Wattage:	8W
Colour Rendering Index:	Ra97
Lumen:	300Lm
Engine:	Tridonic
CCT	2700K (also available in 3000K, 4000K, 6000K)
Dimensions:	As per image
